

Inbox Zero-ish Email Tools

Here are a number of specific tools that can help you clean up and maintain your inbox even faster. Most are free or offer free trials.

<https://unroll.me/> - (all users) This service analyzes your inbox and collects into 1 email ALL of your subscriptions. You can unsubscribe or monitor your subscriptions from 1 email a day.

www.sanebox.com - (all users) This service will analyze your emails and funnel them into high priority and low priority folders. This has been around for quite awhile and is recommended by a ton of people because it does a great job at the analysis. People claim to save **hours a day** because of how much faster they can process.

<https://mailstrom.co/> - (all users) If you want a faster way to deal with your backlog emails you want to check out this service. It will bundle 'like' emails together to make it really fast to sort through your old emails.

Search faster in Outlook: Try out: [Xobni](#) (works with Gmail too) [Lookeen](#), and [Speedfiler](#)

Search faster (all users) and across your drives, desktop and emails: [X1.com](#)
